

## ***Punching Machines***

### ***1. NMC – Aluminium Facade Profile Punch***

#### Product Features

At aluminium facade profiles, NMC performs drilling, notching and grooving.

#### Technical Specifications

- Capacity: max. 150mm
- Working with pneumatic foot pedal
- Dimensions: 300mm W \* 300mm L \* 400mm H
- Max. 7 bar air.
- Weight : 80 kg.

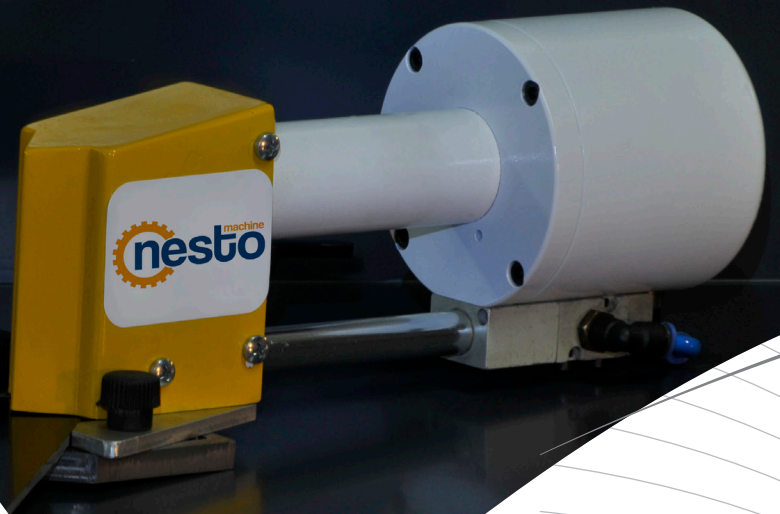

### ***3. NMV – Portable V Punch***

#### Product Features

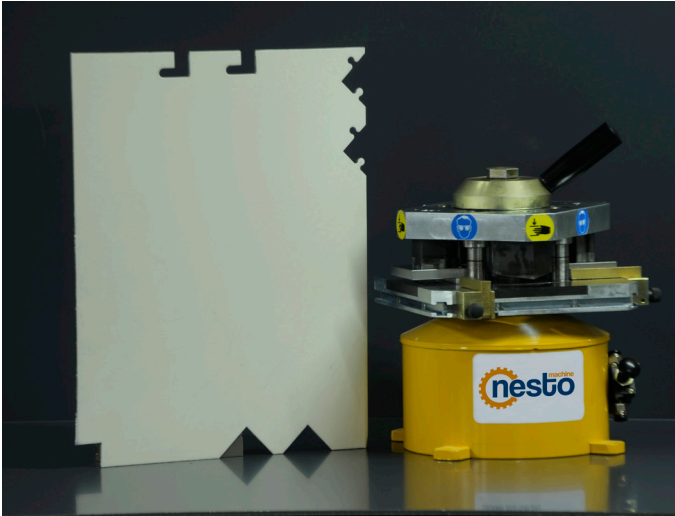

At aluminium composite panels; NMV performs V Punch operations.

#### Technical Specifications

- Capacity: Max. 35mm.
- Adjustable docking
- Dimensions: 80mm W \* 200mm L \* 100mm H
- Max. 7 bar air.
- Weight: 4 kg.

## 2. NMK – Aluminium Composite Panel 4 Process

Panel 4 Process

Product Features

At aluminium composite panels; NMK performs Corner(square) punch, V Punch, Puzzle Punch and T or L Punch operations.

Technical Specifications

- Depth max. : 35mm.
- Working with pneumatic foot pedal.
- Dimensions: 200mm W \* 200mm L \* 400mm H
- Max. 7 bar air.
- Weight: 40 kg.

## 4. NMP – Portable Puzzle Punch

Product Features

At aluminium composite panels; NMP performs PUZZLE Punch operations.

Technical Specifications

- Capacity: Max. 35mm.
- Adjustable docking
- Dimensions: 80mm W \* 200mm L \* 100mm H
- Max. 7 bar air.
- Weight: 4 kg.

## 5. Portable T ( or L ) Punch

Product Features

At aluminium composite panels; NMT performs T ( or L ) Punch operations.

Technical Specifications

- Capacity: Max. 35mm.
- Adjustable docking
- Dimensions: 80mm W \* 200mm L \* 100mm H
- Max. 7 bar air.
- Weight: 4 kg.
